WELCOME

On behalf of our family, I would like to welcome you to our 24th annual sale.

We, along with plenty of others I hope, have enjoyed a great run of seasons now. Cattle seem to be weighing like lead this year, and conception rates in female herds at the highest levels that I have experienced in my 12 years at home. The market in general has also stayed relatively strong now for 12 months. I see this as a good time for us all to take the opportunity to invest in replacement bulls for our cow herds.

This year we are offering 90 bulls by 20 different sires, 9 of which are represented by their first release offering. There are plenty of different bloodlines to select through, and this makes it possible for return clients year in, year out to select replacement sires from Dangarfield.

Leading into last year's sale I knew we had an impressive offering. Couple that with all the enquiries we received, I was quietly confident that the sale was going to go well, although I never imagined that it could have possibly gone as well as it did. In just over a two hour auction 94 bulls were sold to average \$7,117, the highest average for the breed in Australia in 2011. The biggest influence to this result were the top seven bulls averaging just over \$26,000. This leaves the remainder of the bulls averaging \$5,600. Probably the most rewarding aspect of this sale though was that 93% (87 bulls) of last year's sale went to repeat clientele. 34 of the 94 sold for \$4,000 or less, so this would suggest that there was a bull there for every market even with the strong result.

Our private sales in the last two years have certainly got a spread on and have exceeded our expectations. We are now marketing 90-100 bulls privately each year and are aiming to maintain this position and not push it any further. We don't believe in sacrificing quality just so we can sell large numbers for the sake of it.

Paddock sales have gone into four states and territories in the last 12 months and have gone as far as the Northern Territory to the west, Greenvale to the north and to Rochester in the south along with several locals within a 300km radius of our home.

We have enjoyed another successful run on the show circuit again this year in both the stud and prime cattle rings, particularly at Beef 2012. It was disappointing that more Santa Gertrudis studs weren't there but it was rewarding for those people that made the effort.

In the Landmark Stud Cattle Championships Dangarfield exhibited 6 head and were thrilled to come away with 5 broad ribbons including:

Junior & Grand Champion Bull

Dangarfield Universe (P) who also finished in the Interbreed top 10 and has been retained for the 2013 show circuit. Universe (P) is by Dangarfield Quarterback (P).

Reserve Junior Champion Bull

Dangarfield Uluru (Lot 1) by Dangarfield Power House.

Reserve Senior Champion Bull

Dangarfield Tornado, retained for stud duties and also sired by Dangarfield Quarterback (P).

Reserve Senior Champion Female

Dangarfield Tulip by Warrillee Vernon.

CHAMPION EXHIBITORS GROUP

Dangarfield was also able to back up this stud showing with success in the Ruralco CRT Prime Cattle Championships with a place in the largest class for the day with 33 entries. In the class of 10 steers 560/740kg, 0-4 tooth, 100 days grainfed, Dangarfield was placed third. Our pen of bullocks averaged 19 months of age with milk teeth, 666kg, sold for 224c and returned \$1,491.84/head. This result has helped us achieve 7 places in the eight Beef Weeks that we have so far exhibited prime cattle at.

continued...

Thank you must go to Glen Waldron and the team at Elite Fitting Services for our show team preparation and to the Bridle family and their staff at Talbingo feedlot for the feeding of our show bullocks.

This year's sale draft were all weaned onto Leucaena where they stayed until late June when they were started on a Stocklick Trading bull mix for a couple of weeks waiting for our oats crop to be ready for them. We haven't had an oats crop at Kingswood for ten years now but in preparation for some more grass area to be turned into Leucaena country this summer we have decided to grow an oats crop to help breakdown and prepare the country. Lots 1, 2 and 3 are of course excluded from this preparation.

The four generations of Adams' running Dangarfield have all strived for quality cattle and take great pride in what we do and produce. Please feel free to give us a call and come for an inspection at any time. We'd be only too pleased to show you first-hand how we do things around here, and are always up for a yarn.

I hope you enjoy your day with us. Sometimes during the course of a year I do wonder why we do what we do, but at the end of it all I don't know of a more satisfying day. After seeing not only clients but also good family friends investing in their future from an offering of bulls that we put up in our sale, which have been several years in the making, and then being able to down a few prawns and cold beers with them afterwards is a very rewarding way to spend a day.

Thank you for taking the time to show interest in our cattle.

Regards
Ben Adams

See you at "Kingswood" on Monday 24th September.

THANK YOU TO OUR AGENTS

INTRODUCTION

Since the purchase of Dangarfield in 1947, we have always strived to breed good quality, high fertility cattle that are easy-doing with a good temperament, therefore making them efficient to manage and increasing profits with little input costs.

We believe that the draft of bulls this year reflects these goals well.

The stud was founded in 1983, and strict criteria is maintained to keep them producing at an optimum. Our motto, 'Calf or Carcass' has been in force for over 40 years. Heifers are joined at twelve months of age and must calve unassisted. All females must calve each year thereafter or be turned over to carcass. There are only two ways that a cow doesn't make you money annually: she dies, or you don't sell her if she fails to reproduce. Our stud sires are joined to approximately 50 females, and if they don't obtain 90% or better PTIC, are removed from stud duties.

We now run three separate entities within our breeding herd: stud, purebred commercial and a cross bred terminal herd. If any sire doesn't deliver the standard we expect from them we are not afraid to downgrade them and try and replace them if need be.

For each sale bull, their dam's calving dates and calving interval are supplied. The calving interval is calculated automatically by Herd Magic from when the first calf is born. It is the average number of days between calving dates across their breeding lifespan. A fertile young cow may be penalised on this system, but it becomes a stronger indicator when more progeny are recorded. We have decided to supply this data in our catalogue because we believe they are among the best within the breed.

We have always strived to produce cattle with a low birth weight, rapid growth, good temperament and constitution with high fertility. Our herd has already done the hard yards to produce this. It has been developed on these lines for longer than I have been around and it will stay that way.

Dangarfield bulls have served our clients well over the years, and this has seen them go to five states and territories. We constantly get feedback about their fertility, and orders for sires to be joined to maiden heifers for easy calving. Our clients return year after year, and knowing that we are helping our clients to progress gives us great satisfaction. Over the last seven years, 93% of our sales at auction have gone to repeat clientele.

When purchasing our cattle, you can rest assured of accurate and quality information, fertile and efficient cattle, backed by our stud, family and personal reputation.

It's straight to stardom for you young fella!

I have seen sires have an instant impact for other herds, but have never had the pleasure of owning one quite like that ourselves.

Both before and after the 2011 auction, we were amazed at the number of phone calls and contacts we had from people in regards to the Quarterback (P) progeny. Everyone had such positive things to say about them, it was quite flattering. At least we now know that we made the right decision to retain Quarterback (P), after turning down a generous offer to sell him privately in 2008.

I was confident that the offering we had last year would impress, but didn't anticipate they would sell so well. The first five lots averaged \$28,500 and we finished with 15 sons sold to average \$13,700 and gross \$205,500. Some of our sires take a lifetime to return a gross like that.

You can add to these figures 10 sons that have sold privately in the paddock last year, and it gives you an excellent strike rate for producing bulls when you consider he was joined to 57 cows in his maiden season. A top and current stud record of \$37,500 for Torrent (PS) was also achieved, selling to return clients Hardigreen Park Stud, who have given us some positive feedback regarding how he has come through his first season.

This year, Dangarfield Universe (P), a son of Quarterback (P), has led our show team's success by winning Junior and Grand Champion at Beef 2012, and then finishing in the Interbreed Top 10. Universe (P) has also won Supreme Exhibit at Tara, Junior Champion at Wandoan and won his interbreed class at Springsure, and his class at the Ekka meaning that he has been undefeated in class judging for 2012. He has been held back for the 2013 show circuit. Another son of Quarterback (P), Tornado, has won Reserve Senior Champion at Ekka 2011, Supreme Exhibit of Wandoan Show (2012, 115 head) and Reserve Senior Champion at Beef 2012.

Quarterback's daughters are also an interesting group with plenty of potential behind them. They are just so soft and fertile, with a good nature. Often a sire only breeds either a good line of sons or daughters, however Quarterback (P) has been successful in breeding both.

Semen sales have gone south to Rochester, Victoria, several locations in NSW and into southern Queensland. Quarterback (P) is currently in quarantine at Rocky Repro for the collection of licensed export semen. Before entering quarantine, we took Quarterback (P) up for display at Beef Week 2012. I don't think people believed me that he had only been fed for three weeks on a light grain mix prior to going to Beef Week. His amazing constitution made him look like a bull that hadn't yet commenced his working season, even though he had not long come out of 55 cows and onto grass before his 'preparation'.

This year two sons of Quarterback (P) have been retained for use in our herd, and 13 sons can be found for sale in lots:

16, 17, 20, 23, 25, 33, 44, 45, 49, 55, 56, 57 and 75.

Semen packages are available for Dangarfield Quarterback (P).

The big gentle giant of Dangarfield. When he was representing us on the show circuit, Lieutenant was a dream to look after from day one. The only trouble was when he stood on our toe! He weighed just over 1200kg at the Brisbane Ekka in 2004 as a three year old, after working a short season (unfed) at Dangarfield in 2003. We took Lieutenant in to the Taroom Show in 2011 for 'Guess the Weight' and with five weeks of light feeding after coming out of 55 cows, he weighed 1212kg at 9½ years of age. He is still as sound as any other sire we own.

Lieutenant was retained because it is very rare to find an individual with his size, breed character, docility and looseness, and still have a near perfect sheath. Lieutenant's dam (516) had seven calves with a 360-day calving interval. His daughters are particularly impressive and are valued breeders that are really starting to hit their straps, turning out some very impressive progeny.

For the last two seasons, Lieutenant has covered our AI team to give us our best chance of producing a top shelf line of daughters - that's how much we think of them. Two sons have also now been retained. In total, 39 sons have sold at auction to average just short of \$6,300 with a top of \$12,000 for Quatro (PS) selling to Cree Stud.

Sons can be found in lots: **4, 5, 13, 18, 19, 22, 62 and 65.**

DANGARFIELD 554 188002
DANGARFIELD 1007 148176

In Patrol Chief we found a bull by Kactus Jack out of a Frankenstein daughter (who has now had eight calves with a 370-day calving interval) combined with the Capricorn Glengarry blood in her, this meant we had some of our best blood lines over the last ten years or more within the one animal.

Patrol Chief is an impressive individual. Long, thick, soft and loose skinned, he has all the best qualities from his pedigree coming out in him and he passes this on to his progeny. Until 2010, Patrol Chief had only been used in multiple joinings with 60+ cows. In the 2009-2010 joining he did a half-season single-sired, and since then has been single-sire mated for the entire seasons.

Halfway through this last joining season, Patrol Chief was found crippled in the middle of his paddock. Since he was making no sign of recovery, he had to be put down. One son has been retained this year to replace him, and semen from Patrol Chief will now be used in our AI program.

To date 13 sons have sold to average just over \$10,000 with a top of \$24,000 for Titan (P) selling to the Allendale Stud and a second top of \$17,000 for Tycoon (P) selling to the Greenup/Eidsvold studs. Also last year, the top priced commercial bull sold in Australia was by Patrol Chief, selling for \$14,000 to Tullamore Park.

This year two sons can be found in lots: **24 and 36.**

Power House has just been sold on for stud duties in Victoria.

An impressive individual. Similar bloodlines to Patrol Chief - by Kactus Jack out of a Frankenstein cow however this time with Big Sur Yeoman in her pedigree. Our Yeoman cows were some of the best breeders we have owned. At one stage, we had 11 cows over 11 years of age still in the herd producing calves annually, and 5 of them were by Yeoman. Power House's mother (3537) has just weaned her eighth calf with a 372-day calving interval. Another son, Oasis (PS), was also retained in the herd.

Power House is a large tropical sire - plenty of loose skin, big ears, good bone, great feet and a placid nature. We just need to work out how to keep him in his paddock as he is always looking for more cows than we can supply him with - just like his grand-sire Frankenstein behaved. You can pick Power House's consistent offspring a mile off, he really does put his stamp on them.

A limited offering is available this year due to him working most of the season in the commercial herd and then being used in a multiple joined stud paddock after other sires had been removed.

Six sons have sold at auction to average just short of \$5,100 with a top of \$8,500 for Throwback, selling to Bell Brothers, Taroom.

Sons can be found in lots: **1, 54 and 72.**

Purchased privately for \$25,000 at the 2008 Ekka. I noticed the consistency of the Obergs the couple of years before this and decided Cooper (PS) had enough quality about him to stick my neck out and buy him.

A good clean front end with plenty of bone and a good, dark skin and a good set of testicles. Cooper (PS) has definitely reproduced himself. Thickset progeny with a great carcass and a good skin type as their standout qualities.

His daughters are also particularly impressive. Each year there seems to be a Cooper (PS) daughter or two amongst my pick of the drop. He has been used in multiple joined paddocks each season and has proven himself to be a consistent calf-getter.

His first offering averaged \$5,000 last year with a top of \$7,000 for Territorian (P) selling to Cattle Downs. A son has been retained this year.

Sons of Cooper (PS) are in lots:

We have also retained an impressive poll son, Summit (P) who has the potential to do some really special things for us in the future. We have just weaned his first calf crop and they are impressive.

We used Himalaya in our commercial herd to help give them a lift and introduce some new blood to it and the bulls on offer this year are the result of that joining.

Arnold (AI) (P) has produced plenty of polls with good natures that are easy finishers. He produces a very small birthweight and has been used in multiple maiden heifer matings and he has produced more than his fair share of calves while out there.

His first offering of 9 sons last year averaged just under \$5,300 with a top of \$9,500 for T093 selling to S Duncan and B McDonald.

We took a liking to him because although he isn't the largest scaled sire around, he has a huge hindquarter while not having to sacrifice softness and constitution.

Almost an entire calf crop came out poll with a tidy sheath and a high yielding hindquarter, much like himself.

Everyone at home loves the placid nature of our Legend progeny. If you want to breed big, easy doing, quiet bullocks to turn off pasture I strongly suggest having a good look through this offering of Legend sons. We have already kept two sons for ourselves for this purpose.

Legend himself is a very active sire. In his first year he returned a preg test result of 54/55 PTIC. In his second year he came up with 54/56 PTIC. A large line of first crop of daughters have also just returned 100% PTIC.

Legend is a big sire with great length, 1150kg in his working clothes, a bombproof nature with large bone and a good coat. He produces a consistent line of progeny that are easy to identify from a distance when driving around.

One son last year, although weaned late due to all the flooding, was pulled of his mother at 10.5 months of age weighing 522kg!

QUEENSLAND LIVESTOCK AGENTS ASSN LTD
STANDARD STUD STOCK - AUCTION TERMS AND CONDITIONS OF SALE

IMPORTANT NOTICE

All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneers absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
2. The sale will be conducted on a “Sale” or “No Sale” basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare “Sale” or “No Sale”. Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor’s nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
4. The auctioneer expressly reserves the right, without giving any reason therefore, to:-
(a) Refuse to acknowledge any bid;
(b) Withdraw any lot or lots before or during the sale;
(c) Exclude any person from the auction venue should it think fit.
5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder’s offer by the vendor whichever shall be the earlier.
6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.
7. In the event of any dispute in respect to the sale of any lot:-
(i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.
(ii) The vendor and the purchaser shall resolve the dispute between themselves;
(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
(iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9(a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder’s offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-

(i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
(ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16(a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded. The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

17. GUARANTEES OF FERTILITY:-

17.1 BULLS. Save and except for calves at foot, all bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.2 FEMALES. Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf within six months of the date of sale or by the age of 30 months whichever date shall be the later. A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.

17.3 Claims under Clauses 17.1 and 17.2 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.

17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

(a) The animal is returned to the vendor -

(i) in poor physical condition or with any injury;

(ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animals fertility or ability to breed naturally; or

(b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18(a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

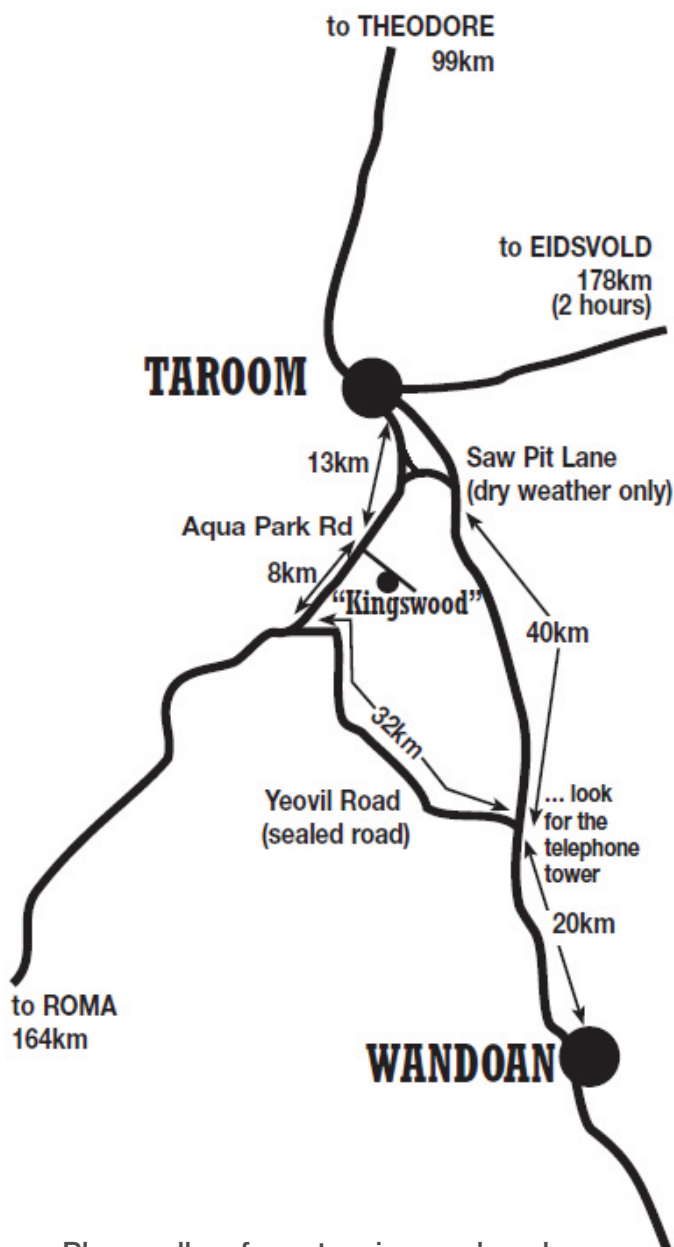

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.

All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

The hammer price is exclusive of GST but GST will be applied to the final hammer price and included on the invoice.
